

Vladislav Bondarenko

SOFTWARE DEVELOPER

Birobidzhan, Russia | vladislav@bondarenko.page | github.com/gloriosus

ABOUT ME

I started my journey as a software developer back in 2015 by learning C# and creating study projects at the university. I have understood the basic principles of developing reliable and flexible software. Even today, I continue to learn C# and .NET, and other modern development technologies. Now I am more passionate about building web applications on ASP.NET Core.

SKILLS

Languages: C#, SQL, HTML, CSS, JavaScript, Python

Technologies: .NET, ASP.NET Core, Entity Framework Core, Dapper, MSTest

Tools: Visual Studio, Visual Studio Code, MySQL Workbench, diagrams.net

Version control: Git

Methodologies: Kanban

Databases: MySQL, SQL Server, SQLite
